Fill hair with protein # Damaged Hair Care

Helps repair the cuticle layer of damaged hair and instantly provides nourishment for healthy, shiny hair.

- ✓ Hydrolyzed Collagen
- ✓ Hydrolyzed Keratin
- ✓ Hydrolyzed Soy Protein
- ✓ Hydrolyzed Rice Protein
- ✓ Hydrolyzed Corn Protein
- ✓ Hydrolyzed Wheat Protein
- ✓ Hydrolyzed Potato Protein

A blend of proteins derived from animal sources such as bones and cartilage, as well as plant-derived proteins, helps supply balanced, high-quality amino acids. It helps improve hair density, forms a protective film to help prevent damage, smoothly coats the hair, and leaves it soft and silky.

INCUS L.P.P. CONDITIONER

Protein Therapy with Naturally Derived Extracts

Plant-derived proteins continuously supply protein that is lost due to frequent damage.

The protein complex ingredients in L.P.P. Conditioner deeply absorb into the **scalp and hair**, helping provide **healthy care**.

Hydrolyzed Wheat Protein

Helps add vitality to the scalp and hair and keeps hair soft and smooth.

Hydrolyzed Corn Protein

Helps fill hair deep inside with nourishment and adds elasticity.

Hydrolyzed Rice Protein

Provides moisture and nourishment to help add volume and shine.

Hydrolyzed Soy Protein

Helps prevent static electricity and provides conditioning care.

Makes Hair Strong and Resilient!

LPP ingredients containing keratin help prevent dryness and hair damage, keeping hair moist and soft for longer.

When used on hair damaged by heat perms or blow-drying, it helps reduce hair damage and maintain resilient, beautiful hair.

Enhanced Moisture # Hair Strength & Elasticity # Liquid-Type Clinic Care

- Volume: 250ml
- Texture: Liquid Type
- Color: Transparent
- Storage: Store at room temperature

Keratin & Nourishment Supply

LPP blended with keratin helps fill hair with protein, adding strength and elasticity to help enhance volume and hair texture.

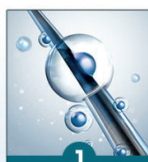

Adds Shine & Gloss

Contains horsetail help extract, rich in protein, amino acids, and minerals, to help form a moisture-protecting film, provide excellent conditioning, and care for healthy, vibrant hair.

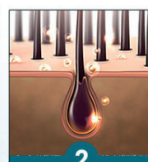

Optimal L.P.P. Conditioner Clinic

INCUS L.P.P. CONDITIONER

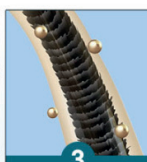

Coats the Hair Surface

Densely coats the outer layer of hair that is prone to damage.

Repairs Hair from Within

Supplies powerful protein deep inside the hair.

Strengthens the Hair Cuticle

Protein ingredients adhere to the cuticle layer of damaged hair for care.

HOW TO USE

After shampooing, towel-dry the hair

Shake well before use

Spray an appropriate amount onto damp or dry hair

Shake well before use

Spray onto damaged areas before or after blow-drying

Style the hair after blow-drying

incus Vita Q10 Recovery

Excellent Recovery Benefits of the S/W Type

- ✓ With excellent dual moisturizing benefits, this **silicone/water-type multi-care essence** helps care for damaged hair, leaving it healthy-looking and lustrous.

Contains Coenzyme Q10 Liposomes

- ✓ **Coenzyme Q10 liposomes and vitamin derivative ingredients work together** to provide a synergistic effect that improves hair elasticity and shine.

Fresh Feel with a Water-Gloss Formula

- ✓ With a fresh and moisturizing feel, the formula **glides smoothly through the hair and absorbs well**, leaving hair calm and manageable with no residue on the hands, providing a **clean finish**.

Contains Coenzyme Vita Q10 Liposomes

3-Step Hair Care System

- **Step 1: Essential Nutrient Delivery through Hair Penetration**
Coenzyme Q10 liposomes, vitamin derivatives, and other ingredients are rapidly delivered deep into the hair, supplying essential nutrients to the hair.

- **Step 2: Fast Care through Bonding and Long-Lasting Action**
By forming strong chemical bonds with the hair surface and damaged areas, the formula helps protect hair, leaving it resilient and healthy, while maintaining long-lasting moisture and shine.

- **Step 3: Improves Shine and Elasticity through a Coating Action**
High-molecular-weight silicone ingredients with excellent coating ability wrap around the hair cuticle, helping prevent nutrients within the hair from escaping.

Maintains Long-Lasting Moisture & Shine

Protects Hair from External Environmental Factors

Helps Prevent Hair Damage from Heat Styling Tools

Coating Power That Envelops the Hair Cuticle

Gives Damaged Hair Healthy Resilience & Vitality

Boosts Hair Vitality & Vibrance

* Results may vary.

3-Step Hair Care System

Step 1: Hair Penetration

Coenzyme Q10 liposomes and vitamin derivatives deliver essential nutrients deep into the hair.

+

Step 2: Bonding & Long-Lasting Action

Forms chemical bonds with the hair surface and damaged areas to keep hair resilient and healthy while maintaining long-lasting moisture and shine.

+

Step 3: Coating Action

High-molecular-weight silicone prevents nutrients from escaping the hair and coats the cuticle layer to enhance shine and elasticity.

Contains Coenzyme Q10
Liposomes

Coenzyme Q10 liposomes are coated with hair-compatible lipids to protect the active ingredients.

Compared with conventional Coenzyme Q10, they deliver nutrients deep into the hair and help protect it from various external stressors.

They also restore the hair's natural functions and vitality, bringing healthy vibrance back to damaged hair.

incus Vita Q10 Plus

How to Use

Can be used alone or together with perm and hair color formulas.

Self Care When Used Alone

Intensive Care

After shampooing, towel-dry the hair. Apply the ampoule evenly, focusing on damaged areas. Apply heat for 10 minutes, then leave for 15 minutes before rinsing with lukewarm water.

General Care

After shampooing, towel-dry the hair. Apply evenly to the scalp and hair and allow it to absorb fully. Apply a hair pack or treatment, leave for approximately 15 minutes, and rinse thoroughly.

Mix Care When Mixed

For Perming

Before perming, dispense an appropriate amount and mix it with the No.1 Agent, or apply evenly to the scalp and hair before beginning the procedure. (Soothes the scalp and helps create resilient waves.)

For Coloring

Before coloring, dispense an appropriate amount and mix it with the hair color formula, or apply evenly to the scalp and hair before beginning the procedure. (Soothes the scalp and helps prevent color loss and fading.)

Tip! The ampoule may also be added when mixing the hair color and developer. Use an amount equal to approximately 10% of the hair color formula.

No. 1 Agent 100 ml / No. 2 Agent 100 ml

3 Key Benefits of incus Ceramide Cysteine

01
Resilient
Waves

02
Minimizes
Treatment
Irritation

03
Contains
Collagen

01 / Resilient Waves

Gently protects damaged hair,
creating natural and resilient waves.

02 / Minimizes Treatment Irritation

Contains ceramide and hair-derived cysteine
(an amino acid) to help reduce irritation during perming.

03 / Contains Collagen

Hydrolyzed collagen nourishes
damaged hair and helps keep it healthy.

HOW TO USE

Proper Use for Healthy Hair and Scalp

STEP 01 | Diagnose the hair condition, then shampoo.

STEP 02 | Apply No. 1 Agent evenly, wind the hair, and process.

[Heat Processing: 15–20 min / Natural Processing: 15–20 min]

STEP 03 | After performing a curl test, apply No. 2 Agent (Neutralizer) for 5–10 minutes.

STEP 04 | Rinse thoroughly, then finish with an acidic shampoo and rinse.

A professional care line for designers.

Beauty completed by professional hands — incus is with you from start to finish.

incus Aroma Cysteine

No. 1 Agent 100 ml / No. 2 Agent 100 ml

3 Key Features of Aroma Cysteine

01/ Natural Cysteine

Natural cysteine helps minimize hair damage and creates soft, resilient waves.

02/ Cucumber Fruit Extract & Aromatic Fragrance

Cucumber fruit extract and an aromatic fragrance help reduce unpleasant perm odors during treatment while providing moisture to the hair.

03/ Contains Keratin

Hydrolyzed keratin nourishes the hair, helping make it resilient and strong.

HOW TO USE

Proper Use for Healthy Hair and Scalp

STEP 01 | Check the hair condition, apply No. 1 Agent evenly to the target hair, and wind the hair according to the desired design.

STEP 02 | Adjust the processing time according to the level of hair damage.

[Heat Processing: 15–20 min / Natural Processing: 15–20 min]

STEP 03 | After performing a curl test, apply No. 2 Agent (Neutralizer) and leave it on for approximately 10 minutes.

STEP 04 | Remove the rods, rinse thoroughly with an acidic rinse, dry the hair, and finish styling.

incus Keratin Cysteine

No. 1 Agent 100 ml / No. 2 Agent 100 ml

3 Key Benefits of incus Keratin Cysteine

01

Resilient
Waves

02

Minimizes Treatment
Irritation

03

Contains
Protein

01/ Resilient Waves

Gently protects damaged hair,
creating natural and resilient waves.

02/ Minimizes Treatment Irritation

Contains keratin and hair-derived cysteine (an amino acid)
to help reduce irritation during perming.

03/ Contains Protein

Hydrolyzed wheat protein nourishes
damaged hair and helps keep it healthy.

HOW TO USE

Proper Use for Healthy Hair and Scalp

STEP 01 | Diagnose the hair condition, then shampoo.

STEP 02 | Apply No. 1 Agent evenly, wind the hair, and process.

[Heat Processing: 15–20 min / Natural Processing: 15–20 min]

STEP 03 | After performing a curl test, apply No. 2 Agent (Neutralizer) for 5–10 minutes.

STEP 04 | After processing, rinse thoroughly and finish with an acidic shampoo and rinse.

incus Chlovita Perm

No. 1 Agent 100 ml / No. 2 Agent 100 ml

3 Key Benefits of Cloverta Perm

01

Resilient
Waves

02

Minimizes
Hair Damage

03

Conditioning
Benefits

01/ Resilient Waves

Polyquaternium provides moisture, while water-soluble oils and collagen deliver conditioning benefits for moisturized, resilient waves.

02/ Minimizes Hair Damage

Contains botanical ingredients such as rosemary leaf extract, sunflower seed oil, and rose seed oil, along with chlorella, vitamin derivatives, and keratin, helping prevent hair damage and create even, healthy curls.

03/ Conditioning Benefits

Chlorella is rich in nutrients that nourish damaged hair, while vitamin derivatives help protect the sensitive scalp and reduce irritation during treatment.

HOW TO USE

Proper Use for Healthy Hair and Scalp

STEP 01 | Diagnose the hair condition, then shampoo.

STEP 02 | Apply No. 1 Agent evenly, wind the hair, and process.

[Healthy Hair: Heat Processing 15–20 min / Natural Processing 15–20 min]

[Damaged Hair: Heat Processing 10–15 min / Natural Processing 10–15 min]
